Nineteen Hundred and Eleven Greetings Catalogue of Geraniums

Issued by R. Vincent, Jr. & Sons Co. White Marsh, Maryland

To Our Friends, Patrons, and the Trade in General

It is with renewed pleasure that we present to our many friends this, our GERANIUM CATALOGUE for 1911, thanking them for the encouraging patronage and support they have given us during the past. We trust that we may merit a continuance of their fullest confidence and assure them that we will do all in our power to make every transaction satisfactory in every way.

That the Geranium is the most popular flowering plant to-day with the mass of people is an indisputable conclusion, and this is not to be wondered at when we consider the grand acquisitions that have recently been added to the list, embracing a range of almost bewildering variety, comprising all imaginable colors, shades and combinations, from the most dazzling colors to the softest and most delicate tints, baffling successful description, so that the most fastidious cannot fail to be satisfied.

NOVELTIES

The list of Novelties we have to offer this season is, without doubt, the finest that it has ever been our good fortune to import; almost without an exception, every one is worthy a place among the best and represents a great stride toward a higher standard of perfection. They have originated under the experienced hands of men known the world over as introducers of the very best Geraniums, men to whom we owe the credit of making the Geranium what it is to-day; and while we have not had an opportunity to test them, we are confident they will meet every requirement of a Geranium.

THE ILLUSTRATIONS

are not intended to portray in any manner the size of the flower or truss, but to give an idea of the general appearance. We have tried to make the descriptions as true as it is possible to get them, very few doing full justice to the variety represented. The colors of all the Geraniums, except the Novelties, have been tried by Dauthenay's French Color Guide.

IMPORTANT TO PURCHASERS

PLEASE READ CAREFULLY BEFORE ORDERING

The price list which will be found on a separate sheet is for stock from 2-inch pots, and is made on the following conditions:

We aim to get new customers and to keep old ones, and by honorable dealings to satisfy both our customers and ourselves.

This list cancels all previous quotations. All offers are made subject to goods being unsold. Prices quoted are for plants from 2-in. pots. Single rates quoted are for less than five of a kind. Dozen rates are for more than five and less than 25 of a kind. Hundred rates are for more than 25 of a kind. Special prices are made for large lots.

No charges are made for boxes or packing, nor for delivery to Express or Freight office on orders of \$1.00 and over; on orders for less than \$1.00, 15 cts. must be added to pay for packing.

As heretofore, all sales and quotations are made on a strictly cash basis, regardless of the responsibility of the customers. We make low prices, guarantee full count, and render the best possible service in every way.

C. O. D. orders must be accompanied by one-half of the amount of order.

All claims must be made immediately on receipt of goods; later claims will not be considered. When loss occurs through our fault, we will take pleasure in correcting it, but we cannot be held responsible for damages occurring in transit.

We cannot hold plants on inquiry without a guarantee of acceptance.

Orders for growing crops accepted subject to crop failure, shortage, or other causes beyond our control.

We prefer to ship all plants by express; they then travel at special rate—20 per cent. lower than the regular merchandise. It is not necessary that charges should be prepaid to secure this rate. We have Adams and United States Expresses.

We take all possible means to keep every variety separate and true to name.

To all who are interested in horticulture we extend an invitation to visit our establishment at any time, and to inspect our stock, feeling confident that they will find it up to the highest standard of perfection that is possible to obtain.

We are located 12 miles north of Baltimore; get off at Cowenton, on the Philadelphia Division of the B. & O. R. R.; or at Chase, on the P. B. & W. R. R. of the Pennsylvania system, Send us word of your coming and we will meet you at either station.

**Descriptive Geranium
Catalogue for 1911**

SILVER LEAF S. A. NUTT. *See description, page 28*

Bruant's 1910 Novelties

Single Varieties

Conchita. Plant remarkable for its compact habit, fine free flowering, large branching habit, Geranium red, with white eye.

Jane Oryan. Large trusses and flowers of a beautiful white color, veined and blotched deep lilac rose, white eye, plant of good habit, compact and robust, always flowering.

Bleriot. Unique plant, very floriferous, exceptionally long flower stalks, large trusses, flowers white at base of petals, delicate tint of deep rose pink; one of the prettiest in this class of pinks.

Grand-Via. Beautiful trusses and flowers of a pretty shade of lilac purple, two petals blotched white at base; plants grow in masses, dwarf compact habit.

Farman. This is a very handsome plant having a branching habit, and blooming abundantly; flowers of a clear shade of deep carmine; fine for bedding.

Lieut. Rollin. Continual bloomer of rich crimson carmine flowers, white eye, excellent trusses; grows well in any good temperature.

Jean Lionnet. Grand flowers of a reddish purple shade, petals maculated orange at base, plant robust and floriferous, long flower-stalks and umbels.

Pierre Courtois. Profuse bloomer of large crimson red flowers, shaded fiery red, robust habit, long and straight flower stalks. This plant resembles Pres. de Lassece, having a very clear color.

Jean Balde. A beautiful novelty shade of reddish purple; petals are blotched white at base, very floriferous, enormous trusses set upright on long flower stalks.

Comtesse Clos. Plant of semi-double habit, free flowering, beautiful color of peach salmon, veined darker, large white eye.

Double Varieties

Richeri. Plant branching, robust and free flowering, large trusses held well above the foliage; flowers a bright shade of reddish old rose.

Campania. Large trusses held well above the foliage by long flower stalks, pure claret color, white eye. Robust habit of growth.

Latham. Immense semi-double flowers of a beautiful shade of deep madder carmine with a white center, very floriferous; a distinct variety, enormous trusses, supported by long flower stalks.

Sophia. Beautiful flowers of a rich purple shaded violet; base of petals maculated orange; a beautiful and distinct variety, low habit, very floriferous, numerous trusses, large semi-double flowers.

Krylor. Magnificent trusses and flowers of a remarkable color of russet orange, white eye.

Pierre Suhau. Immense semi-double flowers of a beautiful shade of carmine purple, with rich velvety finish, low habit, free flowering, beautiful trusses.

G. Zille. Good trusses and large flowers of a pretty shade of cochineal carmine shading through violet at center to beautiful and rich color; plant of good habit, always flowering.

Beau-Carmin. A profuse bloomer of semi-double rose white flowers tinged with an aurora of light mauve rose, rich color and beautiful variety.

Jeanne d'Orliac. Low habit, numerous trusses, being held well above foliage by strong flower stalks, center and halo of light rose pink, white edges.

Pierre Made. Dwarf elegant semi-double flowers of a pretty shade of carmine red, with a white eye, very attractive when grouped.

Single Cyclops

Marquise de Lonqueil. Long flower stalks, round flowers edged Geranium red, shading to light carmine, enormous white center; it is one of the best of the Cyclops Novelties.

Leonce Depont. Deep carmine shading purple with a large white center, beautiful flowers, good strong trusses.

Frederie Plessis. Good trusses, large round flowers with carmine margin shading lighter to a large white center.

Chastenet de Castaing. Large round flowers, clear vermilion red with a large white center, very distinct, plant low, robust and free flowering.

R. Vincent, Jr. & Sons Co.
White Marsh, Md.

Bruant's 1910 Novelties—Continued

Semi-Double Cyclops

Rosemie. Very strong trusses, large semi-double flowers, the color being a beautiful shade of cardinal red, large white eye, and velvety finish, dwarf and robust habit, large flower stalks.

Gil May. Plant low and floriferous, pretty shade of rosy magenta white center, beautiful distinct novelty.

Jean Eyriam. Free flowering, large trusses, semi-double flowers, of a carmine lake color, with large white eye, very distinct.

Gaston Revel. Large flowers of a bright carmine lake color, with large white eye; very distinct color.

Heavy-Wooded Varieties

Madame Laurence. Immense flowers of a lilac purple color, two upper petals blotched white at base, white eye, very strong habit, medium foliage, large trusses being held well above the foliage.

Francis Eon. Large trusses and flowers of a crimson purple shade with white eye.

Comte Bege. Very strong trusses, beautiful and immense flowers, of a rosy magenta color, base of petals shaded to claret; one of the prettiest novelties in this class of Bruants, low habit, flowering abundantly, pretty contrast of flowers to be used as bedding in exposed places.

Rosambel. Immense flowers of a rich dark mauve rose, noted for its richness in color, good habit, strong trusses.

Marguerite Philippe. Strong trusses, pretty shade of salmon carmine with white eye, profuse bloomer, dwarf foliage, an excellent plant for bedding.

Odol. Beautiful shade of violet rose, two upper petals blotched white, dwarf habit, free flowering.

Velma. Dwarf habit, free flowering, large round flowers of a pure white color.

S. De Roose. Plant is robust, has a good habit; immense flowers and trusses, beautiful velvety shade of carmine lake, base of petals maculated orange; very beautiful novelty.

Jean Nougues. A beautiful shade of crimson red shaded violet; orange scarlet blotch at base of petals, good habit; continual bloomer, very good for grouping.

Mademoiselle de Bacalan. Plant of good habit, flowering abundantly, extra strong trusses; large, round, pure white flowers with an aurora of salmon rose, white eye.

Madame Sauge. Long rigid flower stalks; grand flowers of a pretty shade of madder lake with white eye; grows well in the open air, plant robust and free flowering.

Semi-Double, Heavy-Wooded Varieties

Annie Besant. Pretty shade of salmon carmine, semi-double flowers, good habit, continual bloomer until interrupted by frost.

Professeur Opoix. Low branching habit, free bloomer, very grand trusses, held well above the rich green foliage; flowers of a pretty shade of Tyrian rose, feathered and blotched white, on upper petals. A very pretty novelty.

G. Rivollet. Immense semi-double red flowers gradually shading towards center. Supported well above the foliage by long flower stems, continual bloomer.

Heliodore. Lilac purple, base of petals red lead color, grand trusses and flowers, low habit; very floriferous.

Mad. Marie Sperling. Free and continual bloomer of tender rose flowers veined carmine; a very clear and distinct variety.

Madame Michel Corday. Violet rose shading to white at base of petals, large white eye, low habit, medium foliage, very large trusses, and semi-double flowers.

President Luizet. Large and elegant semi-double flowers of a light rich crimson red color, base of petals orange; one of the prettiest novelty shades in the semi-double Bruant race, good trusses, long and rigid flower stalks.

Couallier. Medium flowers of a beautiful shade of cardinal red, white eye, robust plants, large umbels. A very beautiful variety.

Madame L. de Fourcaud. Dark madder lake flower veined and maculated white, grand novelty noted for its continual flowering, and richness in color; very large, semi-double flowers, edges are fringed on order of Carnation.

Lemoine's 1910 Novelties

Double Varieties

Albert de Lapparent. Immense aurora rose flowers; white eye, grand trusses.

Auguste Bernaert. Full florets of an old rose color, plant dwarf and floriferous.

Cesare Lombroso. Clear carmine shading to a rose center, with white eye.

D'Estournelles de Constant. Exquisite semi-double flowers of a mauve rose color, blotched white at center.

Guillaume Marconi. Spherical, madder red color with straight trusses.

Leon Desjardins. Large double flowers held well above the foliage, continual bloomer of currant red flowers.

Selma Lagerloef. Tender lilac semi-double flowers, shading to a rose center.

Single Varieties

Anna Karenine. Medium size cream white, tinted light pink flowers; enormous trusses.

Arthur Bernede. Center light rose salmon, blotched white, shading to mauve rose.

Catulle Mendes. Beautiful shade of salmon pink; strong trusses.

Charles Guerin. Round flowers of a salmon carmine, white eye; enormous trusses.

Daniel Riche. Very floriferous, tender salmon shading darker towards center.

Eugene Brioux. Enormous flowers of an Orient red color; excellent trusses.

Georges Courteline. Round flowers of a lilac purple color, with two upper petals blotched white; large trusses.

Jean Cruppi. Enormous flowers of a deep carmine color, with two upper petals blotched white; large trusses.

Lucien Descaves. Analin red blotched white, resembling a nosegay in form.

Mme. Segond-Weber. Flowers of medium size, carnation white color; very floriferous.

Raymond Poincare. Immense flowers of a deep carmine color; upper petals blotched white with large white eye.

Robert de Flers. Large trusses clear lilac rose; flowers stained white towards center.

Suzette. Grand pure white florets; large round trusses.

Rozain-Boucharlat 1910 Novelties

Double Varieties

Agathos. Strong trusses; immense semi-double flowers of a deep carmine color.

Baron Dhanis. Grand cochineal red, semi-double flowers, with a purplish tint.

Comte Carminati di Brambilla. A very rich color of currant red, shading lighter towards center; two lower petals blotched white at throat, white eye; an excellent variety with large semi-double flowers and trusses.

Diales. Exquisite semi-double deep carmine flowers, gradually shading towards center; magnificent foliage.

Eseurial. White center, shading to bright ox-blood red at edges of petals; immense flowers and trusses, resembling the Cyclops class.

Fragonard. Round carmine salmon, semi-double flowers; very floriferous.

Lieutenant Chauré. Immense semi-double flowers of a rich shade of tomato red, with a large white eye; an excellent variety.

Louis Sire. Profuse bloomer of a deep carmine red; dwarf growth.

Mephisto. Immense semi-double flowers of a deep cardinal red color.

Sergeant Casalonga. Magnificent semi-double flowers of a dark shrimp color, spotted and blotched white; very floriferous.

Valda. Medium size flowers of a beautiful shade of mauve rose, spotted darker with two upper petals blotched white.

Single Varieties

Agra. Large lilac white flowers with an aurora of light rose pink, feathered crimson pink; an excellent variety.

Brutus. A profuse bloomer of russet orange flowers; excellent trusses.

Charles Bordes. Light mauve flowers, spotted light red; good bedder.

Comtesse de Hohenwart. Immense flowers of a currant red with cardinal red upper petals shading lighter toward center; very large trusses; a beautiful variety.

R. Vincent, Jr. & Sons Co.
White Marsh, Md.

Rozain-Boucharlat 1910 Novelties—Single Varieties—Continued

Cybele. Magnificent clear rose flowers shading to bright rose scarlet on upper petals, while others are blotched white at center, with white eye; a superior variety.

Estrella. A very beautiful variety of white flowers, veined and edged with deep rose pink.

Felicien Pascal. Immense flowers of a currant red color; strong trusses.

Manuel II. Cardinal red flowers with large white eye; excellent qualities.

Monte-Rosa. This is a very fine variety with large rose carmine flowers, dotted deep rose;

the two upper petals are blotched white. Has a beautiful large white eye; this variety is superior to all others in its class and colors.

Phebus. Rich color of madder red with white eye; florets beautifully formed; an excellent variety.

Princess Mafalda. Grand, round, perfectly formed flowers of a bright madder rose, white eye.

Rubis. A magnificent flower, of bright strawberry red, shaded through violet to white eye.

Bruant's 1909 Novelties

Single Varieties

Belcolor. Plant of good habit, flowering abundantly large red crimson flowers. A variety remarkable for its richness in color.

Albera. Strong trusses held well above the foliage by long rigid stems; immense flowers of a malt white color; very robust grower and stands all temperatures.

Antithese. Large round flowers of a vermilion scarlet color with a large spot on upper petals; great contrast of colors; robust plants; very floriferous.

Frivola. Beautiful flowers of a delicate rose lilac, upper petals shading to white center; good bloomer; a grand acquisition to any collection.

Interne Bazy. Remarkable shade of anilin violet, darker margin on upper petals, robust grower; compact habit; fine trusses.

Jules Marsan. Immense flowers of a salmon color, with white eye and red apricot halo, excellent habits; medium height; numerous trusses; a very satisfactory bedding variety.

Jane Vieu. Flowers of a brilliant rose vermilion color, reticulated white, beautiful distinct variety; excellent trusses, flowering abundantly.

Rose-aimee. Enormous trusses held well above the foliage, by long flower stalks, pure brilliant rose color; robust habit; stands the sun well; an excellent bedder.

Double Varieties

Bohemos. Profuse bloomer of semi-double rich violet flowers, mixed velvety and fiery spots; robust grower; compact habit.

Claironnant. Immense copper red flowers, blooming abundantly; especially good habit; grand trusses held well above the foliage.

Fraisidis. Semi-double brilliant rose strawberry flowers, mixed and maculated violet; good habit, flowering abundantly; a distinct variety.

Habert-Dys. Grand, round, perfect semi-double flowers of a madder red color with a border of mixed dark violet; robust habit; compact grower; fine trusses.

Leon Riotor. Large semi-double flowers of a fine shade of bright carmine shading to brilliant rose, white center; good habit, flowering abundantly.

Lya Berger. Free flowering, semi-double flowers of a pretty shade of china rose; robust compact habit.

Madame Dux. Large, round, semi-double flowers with strong trusses of elegant form; beautiful color of apricot salmon, dark center, shading to the margin of white rose; constant bloomer; excellent for bedding.

Rosafiera. A beautiful and attractive color of fine rose slightly shaded salmon petals elegantly curled; compact habit; fine upright trusses; very good foliage; fine for bedding.

Scevola. Clear rose-powdered rose carmine, semi-double flowers, borne on long flower stalks; a beautiful variety.

Bruant's 1909 Novelties—Continued

Cyclops

Single Cyclops

Germain. Excellent flowers of a grand rose carmine color, white center; good habit; large trusses; one of the best of this class.

Jean Bologne. Dark red flowers, fine white center, large, round, full trusses; very floriferous.

Maurice Thomas. Large rich vermilion flowers, white throat veined lilac; a beautiful novelty; fine habit and trusses.

Sereno. Cerise carmine flowers, white center, strong trusses; excellent pot variety; fine bloomer.

Heavy-Wooded, Large Flowers

Single

Roseina. Low branching immense flowers of a fine rose color, the two upper petals spotted white; excellent variety.

Pierre Vierge. Profuse bloomer of round, full flowers, gold center, with white border and eye; clear distinct coloring.

Vergier Fleuri. Enduring pure white flowers; excellent habits; one of the best of the white varieties.

Ten Varieties of the Bruant Race with Large Semi-Double Flowers

Alphonse Dachy. The color is a very dark rose, with one large white spot on each of the upper petals; new variety resembling Dagata in its strong habit of growth; immense open flowers; the largest of all new varieties.

Blancaflour. Continual bloomer of fine semi-double pure white flowers; low compact grower, the flowers and trusses are immense, which makes it a fine bedding variety.

Hourlier Lenglet. Large bright vermilion red flowers; robust grower; excellent foliage, enormous trusses; good for bedding.

Jeunesse Poitevine. Medium-sized foliage with indented edges, fine trusses held well above the foliage; large semi-double fiery salmon flowers, a shade lighter and brighter than Beaute Poitevine; one of the best plants for ornamental use.

Julie Borius. Low and bushy plants; abundant trusses held well above the foliage; large open semi-double flowers, new and fine colors; a shade which is hard to describe—a sun, golden rose magenta.

Semi-Double Cyclops

Regiane. White center upon a rose cherry cerise ground; dwarf habit, attractive and pretty variety.

Docteur G. Chanteaud. Compact grower; immense trusses; excellent semi-double flowers; rose garnet color with red margin on each petal. The immense white center makes this variety one of the best of the double Cyclops.

Carjan. Medium trusses; large, flat, open, semi-double flowers of a dark red color with large white center; forming a great contrast of colors.

Ernest Reyer. Very large, semi-double flowers of a light red color; low plant, but with excellent foliage.

One Single Variety

Le Poitou. The newest and prettiest variety of a very rare bluish violet color; lower petals brilliant violet bordered, upper petals red and violet, abundantly spotted fiery red. Intense and distinct in coloring.

Misie Schmerber. Semi-double flowers with large full petals; light and fresh rose color, upper petals spotted white; a very effective bedding sort.

Mme. Bellaud Dessalles. Good thick foliage; very dwarf habit of growth, good trusses; large semi-double rich carmine violet flowers, two upper petals spotted white.

Pierre Courtois. Velvety red purple spotted light violet; a rare color among the Geraniums; profuse bloomer; very rich foliage; large open flowers.

Translucide. Very large, semi-double flowers of a fine silvery rose color, the two upper petals spotted white; good transparent color, splendid robust grower; good foliage; long and rigid flower stalks; immense trusses.

Virgile Rossel. Dwarf grower, resembling Comtesse de Chantemesle; very large semi-double flowers, golden white bordered delicate color; fine for Winter blooming.

Rozain-Boucharlat 1909 Novelties

Double Varieties

Camille Dejoud. Semi-double fuchsia red flowers, nasturtium center.
C. Bessonnet. Beautiful semi-double flowers with petals bordered mauve carmine on a mauve ground.
Commandant Fesch. Perfect flowers of a carmine purple color, nasturtium center.
Ernest Judet. Ground red double flowers.
Francois Coppee. Semi-double novel color flowers, purple with Tyrian red of a silkish appearance.

Jules Cambon. Double dark currant red flowers, shaded violet.
Juliette Adam. Extra double rose carmine flowers, with white stripe.
Santos Dumont. Grand double pure white flowers; an excellent variety.
Victorien Sardou. Semi-double flowers of a clear transparent crimson, shaded fuchsia purple, aurora center.
Vigie. Clear cochineal red, white center surrounded by purple; fine flowers with large petals.

Single Varieties

Cardinal Mathieu. Beautiful red flowers with scarlet margin.
Chanoine Goube. Fine flowers of perfect form; clear purple shaded carmine purple white eye.
Colonel Alix. Excellent round flowers of a rose salmon color, bordered peach.
Commandant Renard. Large flowers shading through red to bright rose.
Docteur Carrell. Grand flowers of a clear peach, veined halo of salmon rose, white eye; round florets; large petals.
Jean Richepin. Exquisite, beautifully formed flowers of a rose color, white eye.

Lieutenant Vary. Large purplish fiery red flowers, white eye; dwarf habit; very floriferous.
Louise Rozain. Magnificent white rose flowers of fine shape; grand round trusses; an excellent novelty.
Maurice Farman. Strawberry red flowers, shading to purple.
Peintre Gratia. Very grand rose carmine flowers; plant vigorous and floriferous.
Sentinelle. Extra good round vermilion flowers, upper petals spotted white.
Stephen Pichon. Velvety crimson purple, shading to scarlet carmine.
Wilbur Wright. Large, round, pure white flowers with a purple stripe.

Lemoine's 1909 Novelties

Single Varieties

Algernon Swinburne. Large, round, orange scarlet flowers, dwarf habit; very floriferous.
Arvede Barine. Grand trusses of enormous milk white flowers.
Cardinal Mathieu. Bright salmon flowers, pale rose on upper petals; upright habit.
Emile Hinzelin. Flowers fiery red shaded black, to the center; excellent habit.
Georges Beaume. Round perfect flowers of a bright rose color, white veins, on upper petals.

Gaston Boissier. Immense trusses and flowers of a bright carmine color; upper petals spotted red; dwarf habit; small foliage; robust upright grower.

Jacques Jasmin. Large perfectly formed flowers, flesh color with pink shading.

Pierre Louys. Grand flowers of a clear rich aurora salmon; large trusses.

Victorien Sardou. Blood-red scarlet flowers; very large trusses.

Double Varieties

Abel Faivre. Large white semi-double flowers with a carnation red margin.

Albert Guillaume. Tender rose mauve, shading to white center; large semi-double flowers of perfect form.

Benjamin Rabier. Grand large semi-double flowers of a rose mauve color with carnation shading.

Ernest Hebert. Enormous rose white, semi-double flowers with a salmon veined center; very woody.

Jean Veber. Very large flowers on long stems always full of bloom, bright scarlet.

Mme. Favart. Perfect alabaster white flowers; excellent strong trusses.

COL. BADEN POWELL. *See description, page 29*

DUKE OF EDINBURGH See description, page 29

Bruant's 1908 Novelties

Single Varieties

Amedee Giat. Early and continual bloomer of brilliant solferino violet flowers, two upper petals superbly maculated bright red; one of the best and distinct violet colors; strong trusses; grand flowers; good compact habit of growth.

Gaetane. A novel and magnificent shade of nankeen yellow, shading to Daybreak pink; an excellent variety for any collection; round flowers; immense trusses.

Nisus. Magnificent flowers and trusses of a mauve rose color, distinctly spotted red; one of the most handsome plants of its class.

Double Varieties

Atlantis. Beautiful and attractive flowers of a brilliant madder red, effective for centers of vases, baskets, etc., or planting in arid places, as it has a robust growth, immense trusses, and bright coloring, making it very attractive.

Virginia. Immense semi-double flowers of a Daybreak pink color, painted rose, large white center; very floriferous; immense trusses; plants have beautiful growth.

Curiosa. Magnificent rose mauve flowers spotted carmine, white center; dwarf grower, medium-sized trusses.

Heavy-Wooded, Semi-Double

Docteur Danjou. Magnificent flowers of an intense violet color, upper petals blotched white; excellent semi-double flowers of a fine habit; remarkable variety of magnificent qualities.

Duchesse de Chailles. Grand semi-double flowers of a pale rose color, glazed mauve, striped white in a flint style; one of the most handsome Geraniums now in culture, both in pots and beds; enormous trusses held well above the foliage.

Eliacin. Exquisite semi-double flowers of a bright mauve rose color, shading toward white center; good habit of growth, dwarf and compact; medium-sized foliage; immense trusses.

Jean Dornis. Flowers of salmon and dawn color, shading toward the outer edges to a lighter clear shade, robust but compact habit of growth; large trusses held well above the foliage, good pot plant; habit similar to Beaute Poitevine.

Luigi Grandi. Profuse bloomer of violet carmine flowers, red on upper petals; one of the most handsome colors in our heavy wooded types, underlaid foliage, and of good habit.

Pres. Neumann. Handsome semi-double flowers of a clear orange scarlet, of remarkable intensity. Growth short and branching, with good thick foliage; a continual bloomer and a great favorite.

Heavy-Wooded, Single Varieties

Fix. Immense flowers of a bright coquelicot with white eye, very effective when massed, because of their brilliant coloring.

Rosamine. Beautiful flowers of a handsome rose color with violet reflex, petals maculated white; excellent trusses of fine flowers; an excellent variety.

Suzanne Leepre. Very large flowers and trusses of a beautiful shade of aurora salmon shading towards a lighter distinct eye, robust compact grower; very floriferous.

Single Cyclops

Bertrade. Solferino rose, large white center; very distinct markings, flowers and trusses of grand quality; excellent habit of growth.

Charles Derennes. A pleasing shade of red, shading through violet to an immense white center; excellent trusses and flowers; an early blooming variety.

Melodia. Handsome round flowers of a brilliant rose magenta, large white center; a beautiful and distinct variety; prettiest shaded novelty in this class, very floriferous, large trusses; round flowers.

Semi-Double Cyclops

Louis Maindron. Flowers of a brilliant madder red, large white center, forming a most brilliant combination of colors; excellent habit of growth; immense open flowers.

Pablo. Grand flowers of a red color, shaded with violet, large white center, medium-sized trusses, dwarf grower, early and floriferous.

Lucis. A magnificent flower of a clear saturnine red; fimbriated flowers, literally covering the plant, semi-double, slightly curled, dwarf compact grower and abundant bloomer.

Rozain-Boucharlat 1908 Varieties

Double Varieties

- A. Ballif.** Beautiful cochineal red center, veined rose salmon fading lighter to almost white edge.
- A. E. Guillermoz.** Strong grower of white tinted flowers shaded and bordered lilac, large full petals, semi-double flowers.
- A. Reveiller.** Immense semi-double flowers, carmine lake tinged red, light center, full petals.
- Marie Seville.** Flowers of a velvety crimson carmine, with bright nasturtium center; very large blooms.

Major Rincon. A clear fresh shade of cyclamen rose, beautifully shaded semi-double flowers; beautiful form.

Oudjda. True purple flowers, spotted bishop violet opening to a white center, dwarf habit, free flowering.

Belfort. Semi-double flowers of a cochineal carmine, shaded crimson center, veined white.

Rabat. Pure carmine clear plum center, white eye, semi-double flowers; petals finely formed.

Single Varieties

A. J. Pirie. Immense round flowers of a carmine purple shading, through fuchsia red to a grand white center.

Ben Sedira. Flowers are large and round and of a red purple color, center clear plum with a white eye.

De Brezenaud. Vigorous plant, bright vermilion color, profuse bloomer of extra large flowers of a Paul Crampel type.

Diamant. White bordered lilac flowers round and of perfect form; immense trusses.

General Gallieni. Exquisite flowers with round petals of a crimson velvet color, shading to a bright purple, white eye, bordered red.

Mme. Leonce Duval. Handsome flowers of a delicate rose shade, carmine halo, carnation white eye.

Mme. Reynaud. Grand flowers of a beautiful shade of rose; large trusses; abundance of flowers of perfect form.

Prince des Asturies. Full flowers with white center surrounded by salmon orange shading to white border; upper petals maculated brighter red; red orange throat; strong grower and very floriferous, immense trusses.

Suzanne Rozain. Immense flower of a beautiful form, clear mauve rose, delicately tinted to white center.

Lemoine's 1908 Novelties

Single Varieties

Anna Judic. Beautiful white flowers, tinted pink; excellent trusses; splendid habit.

Dr. Bertillon. Immense flowers of a salmon striped and blotched rose white color, erect full and round flowers.

Dr. Laveran. Grand fiery red orange flowers, stained white on upper petals.

Emile Boutmy. Raspberry red flowers, upper petals fuchsia red, superbly maculated white at the base of upper petals; immense trusses.

Henry Moissan. Brilliant clear vermilion garnet with white center; beautiful flowers and trusses held vertically on long stems.

Louis Renault. Vigorous grower of perfect flowers and trusses of a clear orange scarlet color, robust semi-dwarf and vigorous grower; unsurpassed as a bedding variety.

Marcellun Berthelot. Attractive flowers of a brilliant scarlet color; semi-dwarf vigorous grower; fine trusses.

Double Varieties

Albin Valabregue. Immense flowers of a rose lilac color; upper petals maculated white.

Emile Moselly. Exquisite madder red, semi-double flowers, resembling the single Reformatory; dwarf, robust grower; trusses abundantly produced.

Eugene Carriere. Enormous semi-double flowers with large rose copper salmon petals, semi-dwarf robust habit of growth; fine trusses.

Henri Cain. Clear currant red, rose white center; good trusses.

Loredon Larchey. Semi-double imbricated white flowers, with distinct rose edge; large strong trusses.

Rachel. Large semi-double white flowers tinted pink; very floriferous; enormous trusses.

Terre Lorraine. Beautiful white semi-double flowers tinted rose carmine; plants are exceptionally good for Winter blooming; very floriferous; fine trusses.

Theodore Botrel. Semi-double flowers of a beautiful coral red color; fine trusses of a spherical shape.

Bruant's 1907 Novelties

Single Varieties

Aurora Leigh. A wide and well-developed salmon, halo-like sunrise around white center and edges.

Florida. Beautiful pure light mauve rose, profusely spotted with bright carmine, two fine white spots adorn the upper petals.

Georges Morand. Upper petals spotted cardinal red, upon a beautiful mauve rose ground.

Josanne. Bright rose carmine, very distinctly veined marble with rose white center.

Marthe Dupuy. Bright rose mauve spotted and dotted with carmine violet, the two upper petals maculated with white at the base.

Mirador. Bright vermilion red, sparkling with flashes of violet.

Refulgens. Velvet violet brown, base of petals sparkling fire; excellent variety.

Double Varieties

Grazia Deledda. A delicious blush color center, with wide white border.

Henri Bonnel. Flashed white and blush center; violet ruby ground.

Printanier. Resembling apple blossom but more distinctly veined, bordered mellow to rosy tint.

One Semi-Double Variety

Gazana. Brilliant rose, white center.

Two Single Cyclops

Mary Floran. Immense white center, yellow halo.

Stephen Fournol. Wide red margin, white center, flashed with bluish white; center clear violet ground.

Two Semi-Double Cyclops

Camille Marbo. White center, clear carmine red.

Paul Girbal. Bright rose cerise with flashes of violet; immense white throat.

Two Heavy-Wooded Single Varieties

Eveline Le Maire. Large white spots upon a delicate rose ground, veined with deeper rose.

Lysias. Prettiest white variety in our heavy wooded type.

Four Heavy-Wooded Varieties

Flavia. An excellent addition to the whites, beautiful pure white flowers.

Jacques Daurelle. Bright cochineal red.

M. Emile Guerin. Handsome rose white wall-flower tint, spotted with white.

Val-Fleuri. Beautiful shade of turkey red

Lemoine's 1907 Varieties

Single Varieties

Auguste Barbier. Brilliant scarlet.

Col. Poirine. Russet orange shaded salmon.

Dr. Zamenhof. Bright garnet maculated white through transparent purple white center.

Emile Gobhart. Flowers of a vermilion scarlet color.

Emmanuel Arene. Dark velvety crimson, maculated orange red; very rich.

Francis de Croisset. White veins upon an orange salmon ground.

Gabriel Faure. Shell white, overlaid primrose pink.

Vicomte de Vogue. Salmon throat, rose white shading to bright salmon petals.

Double Varieties

Jamaïque. Flowers cherry red.

Jules Cesar. Beautiful orange flowers.

Le Lutin. Base of petals white, light crimson petals.

Moulin Rouge. Brilliant rich crimson scarlet.

Rozain-Boucharlat 1907 Novelties

Single Varieties

Amiral Touchard. Lower petals spotted with carmine dots, bright rose ground, white center.

Abeline Fabre. Beautiful shade of shrimp pink, at the edges of each petal, shading through clear salmon to white eye.

Carlo Sala. Bright and striking shade of rosy scarlet.

Charles Giriat. Fine shade of carmine shaded cochineal.

Louis Dutrie. Upper petals fiery red, deep crimson purple ground.

Madame Poissonon. White eye, rose salmon petals.

Marie de Beedelievre. Charming lilac violet flowers, gradually shading to a white center.

M. Bourgoïn. White blotches on upper petals, crimson red flowers, gradually shading to white eye.

Paul Dumont. Lower petals light reddish purple, upper petals shaded fiery red.

Ribot. Beautiful shade of crimson scarlet, overlaid with amaranth purple.

Romilda Vicini. Upper petals feathered crimson white ground, overlaid with slight rose salmon, having a reticulated effect, upper petals feathered crimson.

Verdi. Margin crimson carmine, shading through white, overlaid light rose to an almost white center.

Double Varieties

Albin Meunier. Clear vermilion scarlet.

Banquise. Excellent trusses of large pure white flowers.

Constellation. Rose white spotted carmine.

Francillon. White eye, crimson red shading lighter to a violet tinge.

Henry Dreer. Vermilion scarlet.

Le Suffren. An exquisite shade of carmine, slight scarlet shading.

Matteo Vercellino. Rich rose shading lighter to an orange center.

Michel Belin. White throat upon a chamois rose ground, shading through rich carmine.

President Fromont. Beautiful crimson.

Newer Varieties of Special Merit

Under the heading of Newer Varieties of Special Merit, we, for a number of years, have been listing a set of Geraniums selected from those of recent introductions, or not well-known varieties, which in our judgment possessed special merit enough to justify giving them a more thorough trial. Many of them have been placed in the standard list superseding some of the old favorites, or filling a place for which they were especially adapted. Our newer varieties of special merit have a reputation of which we are proud, and we are confident that the list we offer this season will prove even more satisfactory than any previous set.

Double Varieties

Abbie Schafer. (Hill 1908.) One of the very finest and most dependable red bedders yet introduced; enormous semi-double crimson scarlet flowers borne in elegant trusses on long stems.

Arnage. (Brt. 1907.) Immense flowers of a very attractive shade of bright rose orange flashed white at center.

Aurora. (Roz. 1908.) A magnificent flower of a bright pleasing shade of aurora copper, shaded lighter; enormous bold trusses.

Bellencontre. (Brt. 1908.) A very handsome and attractive flower of a clear vermilion orange color, the petals maculated white; immense trusses and robust habit of growth, blooming early and continuously.

Brasero. (Brt. 1907.) Large semi-double flowers of a bright cochineal red; very short foliage; a grand acquisition to the dwarf red class for which there is a great demand.

Clarus. (Brt. 1908.) Beautiful semi-double flowers of a most tempting fresh color of silver rose, which is very effective for a border; excellent habit of growth and belongs to the Philemon type, having the same foliage.

Convoitise. (Brt. 1908.) A most fascinating plant of a clear solferino violet, upper petals maculated red; immense flowers and trusses borne on long stems.

JOSEPH WARREN. *See description, page 29*

L'ELEGANTE.

We are
the acknowledged
headquarters for
Geraniums in
America. This rep-
resents a section
of our Geranium
Houses. The two
houses partly
shown here hold
280,000 2-inch
pots each. We
have 15 large
houses devoted
exclusively to
Geraniums.

PANSY GERANIUM, MRS. LATAL

MME. THIBAUT. *See description, page 30*

Newer Varieties of Special Merit—Double—Continued

- Edmond Blanc.** (Roz. 1907.) This is beyond doubt the most handsome and brilliant Geranium we have in the cerise color. The color is a bright rich carmine shaded around the white eye and on upper petals with bright scarlet, a color that is so entrancing as to catch the eye of the most casual observer; very few people in going through our houses fail to stop and admire and remark its marvelous beauty; its foliage and habit of growth are ideal for a pot plant and a strong constitution enables it to withstand very unfavorable weather. We have a splendid stock and predict for it a great future.
- Electre.** (Brt. 1908.) Profuse bloomer of immense flowers of a very brilliant and attractive shade of clear wall-flower violet, which is very charming when used for bedding; excellent dwarf compact habit of growth.
- Ernest Vernet.** (Brt. 1908.) Enormous flowers of a beautiful madder red spotted lilac and veined scarlet; short healthy grower; magnificent foliage resembling that of a Pelargonium.
- Fiat.** (Brt. 1908.) This is one of the prettiest colored novelties in the salmon type, being of an orange salmon color with copper tint; excellent habit of growth; medium flowers of good substance; compact foliage.
- Henriette Cordelet.** (Brt. 1907.) Bright rose spotted with white; very large semi-double flowers freely produced; compact and branching habit, similar to the Bruant heavy wooded type.
- Henriot.** (Brt. 1907.) Beautiful superb semi-double flowers of an exquisite rose Neyron color; enormous trusses with long, graceful stems; handsome luxuriant foliage; a variety that is destined to become a general favorite.
- Henry Bataille.** (Brt. 1908.) A magnificent red cerise flower with brilliant scarlet shading; we predict that this variety will soon become a great bedding favorite, being able to resist the heat of the sun; robust, compact branching habit; dark green slightly zoned foliage of leathery texture; enormous trusses supported on long, rigid stems.
- Jamaïque.** (Lem. 1907.) A bushy compact globular plant, producing in greatest abundance throughout the entire season magnificent semi-double bright cherry red flowers; enormous trusses of excellent qualities having long, rigid stems highly prized for bedding; a very attractive and pleasing flower and should be in every collection.
- Jean Tharaud.** (Brt. 1907.) A magnificent flower of a carmine purple color, upper petals shaded lighter with large white center.
- Joseph Vianney.** (Roz. 1907.) Semi-double flowers of a beautiful shade of salmon rose shaded peach; immense round petals; fine grower, magnificent foliage and trusses.
- Louis Mazieux.** (Brt. 1907.) A most gorgeous flower of a bright vermillion red, very distinct white center; excellent flowers and trusses; splendid grower.
- Lusea.** (Brt. 1908.) A continual bloomer of enormous flowers, bright orange red color, and lilac shading on upper petals; an effective and pleasing combination of colors being very attractive as a pot plant.
- Madeline Lepine.** (Brt. 1907.) Profuse bloomer of exquisite salmon pink flowers; excellent grower, the plant being a mass of blooms the entire season.
- Michele Savry.** (Brt. 1908.) The semi-double flowers and trusses are perfectly formed; beautifully fresh salmon pink gradually fading to white on edges of petals; habit semi-dwarf and branching.
- Odeon.** (Lem. 1907.) A magnificent semi-double orient red flower with white center, and upper petals maculated white; clear distinct foliage; semi-dwarf habit of growth.
- Regalis.** (Brt. 1907.) Immense semi-double flowers and trusses of a pure carmine color, which is a new color in the heavy wooded or Bruant type.

Single Varieties

- Claire Frenot.** (Brt. 1908.) A magnificent flower of a Nymphaea rose color shading Daybreak veined rose salmon; enormous trusses held well above the attractive foliage, capable of resisting the inclement weather, making new growths in Autumn; robust grower of excellent habits.
- Jeanne Gazin.** (Brt. 1908.) Large flowers of an exquisite shade of clear rose, produced in enormous trusses on long rigid stems; flowers completely detached from the foliage.
- Jean Lamarque.** (Brt. 1908.) Continual bloomer of red cerise flowers, shading through violet to white center with orange blotch on upper petals, enormous trusses, immense flowers held well above the luxuriant foliage, famous for its blooming qualities, continuing in bloom until prevented by frost.
- Jean Rostand.** (Brt. 1908.) Handsome flowers of a brilliant vermillion red, with a large white center, reticulated blue veins, semi-dwarf and compact habit, excellent trusses and exquisite foliage.
- Mme. Francois Carnot.** (Brt. 1907.) A very attractive shade of bright rose, center flashing white, large round flowers; bound to become a favorite.
- Semonne Parmentier.** (Brt. 1908.) A peculiar shade of nankeen yellow with white eye, enormous flowers and trusses, excellent foliage; compact habit of growth.

Standard Varieties

The Standard List of Geraniums which we are this season pleased to present to our customers for their approval, is the finest collection ever offered, and is the result of years of experience and the selection from over a thousand varieties, which have been tried out under our personal supervision, so that now every variety represents the highest standard of development yet obtained in its special class and color. Every one a favorite; every one a seller.

A life spent in growing and selling Geraniums, always determined to have the best, to lead all competitors has taught us to know good Geraniums, so that now we can say without the slightest fear of successful contradiction that the following collections rank second to none in the world, as far as covering the range of distinct and useful varieties is concerned, and we are confident every one is capable of giving satisfaction in every way.

Double Varieties

Admiral Jones. (Lem. 1906.) Beautiful deep strawberry red, superior flowers and trusses; excellent grower and fine habit.

Alphonse Ricard. (Brt. 1894.) A beautiful shade of bright vermillion, large flowers; enormous trusses borne in the greatest profusion on long rigid stems, held well above the exquisite deep green slightly zoned foliage; habit is excellent, vigorous, semi-dwarf and branching; a magnificent variety either as a pot plant or bedder. By many considered one of the best.

Anais Segalas. (Brt. 1906.) Immense bright salmon flowers brightening toward center; enormous trusses; dark rich deeply zoned foliage; strong robust grower with splendid habit.

Beaute Poitevine. (Brt. 1887.) Beautiful shade of shrimp pink, gradually shading to white; considered to be one of the best semi-double bedders in the light salmon shades; a universal favorite.

Berthe de Presilly. (Brt. 1887.) Magnificent semi-double silver rose pink flowers, producing splendid trusses the entire season; this is the best bedding light pink we have and is a suitable companion to the old favorite S. A. Nutt.

Centaure. (Lem. 1887.) Beautiful shade of Neyron rose, immense flowers of perfect form; excellent trusses held well above the light green heavily zoned foliage, stands the sun perfectly; an excellent bedder and pot plant.

Double Dryden. Coral white center, shading through a delicate lilac toward outer edge of the petals, which are a beautiful glowing soft crimson; an exquisite combination of colors; splendid as a fancy pot plant.

Comtesse de Harcourt. (Brt.) Pure white flowers with beautiful florets, and enormous trusses which stand the sun well; perfect habit; deep rich green foliage.

Col. Thomas. (Brt. 1907.) A most exquisite shade of deep cardinal red, slightly covered with a purplish sheen, deepening towards the center; upper petals blotched fiery red; enormous trusses produced in the greatest profusion, on long rigid stems, holding them well above the foliage, which is a beautiful

dark rich green with a slight chocolate zone; dwarf vigorous and branching habit; an ideal pot plant, we predict that this is destined soon to rank among the very best of the standard sorts.

Cousin Janie. Magnificent clear rich, slightly spotted light red, gradually shading to a distinct white center, dwarf and branching habit, producing an abundance of flowers; excellent both as a pot plant and low bedder.

Dagata. (Brt. 1905.) A constant bloomer of very effective and striking semi-double mauve rose flowers with large blotches of white at base of upper petals; the plants are dwarf, robust but compact growers; trusses of gigantic semi-double flowers, produced in marvelous profusion, having all the best Geranium qualities, such as a perfect habit of growth, resistance to all temperatures, uninterrupted bloom, and ease of cultivation. Represents the highest type of Geranium yet produced.

Dr. Philippe Tissie. Light crimson color shaded through magenta to white center, a beautiful striking color and robust grower; flowers abundantly produced in large trusses borne on long rigid stems.

E. H. Trego. A beautiful shade of dazzling scarlet with a pleasing soft velvety finish on a saffron ground; large semi-double flowers and trusses enormously produced in great profusion; dark green glossy foliage of good texture; excellent, robust, and branching semi-dwarf habit.

Fleuve Blanc. (Brt. 1905.) A true representative of the Bruant race, a profuse bloomer of pure white flowers; vigorous and compact dwarf grower; enormous rich green foliage zoned with dark green.

General Grant. (Brt.) A vigorous grower and constant bloomer of orange scarlet flowers; excellent foliage, flowers and trusses of medium size. A great favorite as a bedder. We have the true free flowering type.

General Saussier. (Lem. 1906.) An exquisite shade of bright carmine fading through delicate lilac to a large distinct white center; an extraordinary attractive variety as a pot plant, ideal habit of growth; semi-dwarf, vigorous, clear light green foliage.

R. Vincent, Jr. & Sons Co.
White Marsh, Md.

Standard Varieties—Double—Continued

Jean Oberle. (Brt. 1906.) A most attractive shade of hydrangea or peach pink gradually shading to almost pure white at outer edge of the well-formed semi-double petals; the trusses are enormous, often having one hundred florets to the truss; strong and vigorous constitution; profuse bloomer; clean distinct foliage which stand the sun perfectly; very satisfactory as a pot plant or bedding variety.

Jean Viaud. (Brt. 1891.) Beautiful bright clear shade of mauve rose, shading to a clear white throat; the flowers and trusses are enormous, sometimes measuring 6 in. in diameter; luxuriant foliage, of good substance.

Jean Violette. (Brt. 1906.) A tall robust grower with rich violet crimson, semi-double flowers; immense trusses on long stems held well above the strong foliage; a robust grower with strong habits.

Jules Vasseur. (Brt. 1906.) Bright cardinal red with a distinct white center, and slight violet shading on upper petals, making a very striking and effective Geranium, rich green healthy foliage; very free flowering, exceptionally good as a pot plant.

La Favorite. (Lem. 1906.) One of the finest double whites of its class, being of a pure white color; a profuse bloomer of enormous flowers; beautiful foliage and finest habits; an excellent white bedder.

Le Cid. (Lem. 1888.) A charming shade of dark cardinal red; magnificent florets and fine trusses; dwarf and healthy habit; splendid as a pot plant and low bedder.

Leon Baudrier. (Brt. 1906.) Immense semi-double flowers and trusses of a beautiful shade of carmine lake shading soft cerise to a large white center; thick and leathery foliage; a most excellent habit of growth; fine variety, being highly prized as a pot plant.

Leopold Bouille. (Brt. 1906.) This variety will in a short time become a universal favorite, as is the custom of the superb Cyclops type; profuse bloomer of bright solferino red flowers, upper petals richly shaded bright carmine purple to a distinct white center; immense perfectly formed flowers borne in enormous trusses with ideal habit; unsurpassed as a pot variety.

Madame Laporte Bisquit. (Brt. 1906.) Immense flowers of an exquisite shade of light salmon rose, gradually shading to an almost white margin at the edge of petals; large trusses; strong robust grower, semi-dwarf and compact habit.

Madonna. (Roz. 1900.) An excellent variety of a semi-double pure snow white flower; compact grower of a noble upright habit; an old and universal favorite.

M. Anatole Roseleur. (Brt. 1900.) A most magnificent shade of deep rose pink, rivaling in beauty and freshness the Paul Neyron rose, a color which has been more admired than any other Geranium in our possession, and which we are confident in the near future will become the standard pink; the immense semi-double flowers with a distinct white throat are borne on a stout stem well above the clean extremely handsome foliage. It has a most pleasing dwarf compact growth, short jointed and vigorous, producing flowers at every joint. We unhesitatingly recommend this variety as we have no doubt but that it will give satisfaction in every way, either as a pot plant or bedder.

Mauna Loa. (Lem. 1907.) Large semi-double flowers of a very attractive shade of russet orange; beautiful robust and slightly zoned foliage; trusses are of medium size, borne in great profusion; strong vigorous and branching habit; very effective both as a pot plant and bedder.

Marquise de Castellane. (Brt.) Immense beautiful soft red crimson color flowers varying to a lighter red; perfect in form; borne in large trusses, produced on rigid stems. We can recommend this variety, knowing it is the healthiest variety we have.

Marquise de Montmort. (Brt.) A most magnificent shade of deep brilliant purple; borne in immense florets and trusses, held well above the strong deeply zoned foliage; an exceptionally striking variety, being greatly admired.

Miss F. Perkins. A constant bloomer of charming deep rose pink flowers, with a distinct white throat; stands the climate well; excellent florets and trusses held well above the foliage; good for bedding.

Miss Kendall. Large handsome flowers with a scarlet throat, surrounded by a margin of dark carmine red, which is very effective; noble upright habit; round and full florets.

Mme. Barney. (Brt.) A profuse bloomer of an enormous semi-double flower of a deep pure pink color; a grand dwarf and branching habit; perfect bedder and pot variety.

Mme. Buchner. (Lem. 1908.) Strong vigorous plant, adorned with magnificent flowers of a snow white color, and excellent foliage.

Mme. Canovas. (Lem. 1908.) Immense flowers of a brilliant scarlet with maroon shading; large trusses produced on long stems held well above the clean foliage; similar to S. A. Nutt, although a more healthy grower.

Mme. Charrotte. A very attractive shade of distinct rosy salmon, gradually shading to a lighter margin; heavy deep green foliage; enormous trusses and florets, continues to bloom throughout the entire season; dwarf compact habit. An excellent bedder and unexcelled as a pot plant.

Descriptive Geranium
Catalogue for 1911

R. Vincent, Jr. & Sons Co.
White Marsh, Md.

Standard Varieties—Double—Continued

Mme. F. Sarloveze. (Brt.) An exquisite and pleasing shade of bright rose; the immense and semi-double flowers are very attractive; dwarf and branching habit. The abundantly produced flowers are among the largest we have.

Mme. Jaulin. (Brt.) A continual bloomer of a Daybreak pink, flower shading to a delicate peach pink; broad dark zoned foliage; dwarf compact habit; enormous trusses.

Mme. Landry. A distinct salmon pink with a slight scarlet shading, enormous trusses, and florets borne on long stems; semi-dwarf and vigorous habit. With its noble upright nature it is capable of standing the extreme heat. An excellent pot variety, being an early bloomer.

Mme. Recamier. Strong and vigorous grower of a double snow white flower; in our opinion this is the best double white in our possession.

Monsieur Emile David. (Brt. 1906.) This type of extraordinarily beautiful Geranium represents a grand achievement in the perfection of this class of flowers; they are of strong healthy erect growth and the trusses reach enormous dimensions. Immense semi-double flowers of a violet rose color with base of upper petals feathered white. Freely produced on long rigid stems; unsurpassed as a pot plant.

Mrs. Annie Vincent. (Brt. 1908.) Exquisite semi-double flowers of a pure carmine color, somewhat maculated white, incomparable freshness and brightness; short robust growth with exceptional resistance to inclement weather. The handsome semi-double flowers are supported in magnificent trusses well above the attractive foliage.

Mrs. Lawrence. This is one of the finest Geraniums of its color that we have ever seen, being an artistic shade of bright satiny salmon pink, slightly tinged white; with its clear healthy foliage, splendid dwarf compact habit of growth, and abundance of flow-

ers, it is unsurpassed as a pot plant and bedder.

Ornella. (Brt. 1906.) A continual bloomer of beautiful semi-double, deep rich scarlet flowers, slightly shaded crimson; excellent habits, splendid truss and foliage. A magnificent variety which we are confident will meet the requirement of any semi-double scarlet Geranium. Luxuriant both as a pot plant and bedder.

Peter Henderson. (Brt. 1902.) A profuse bloomer of an excellent shade of poppy red famous for bedding purposes. The immense flowers have excellent health and will meet all requirements as a pot plant; dwarf and compact grower but strong and robust.

President Baillet. (Brt. 1906.) In President Baillet we have a prominent candidate for first place among the magnificent Bruant race, being a strong, robust, short jointed grower, large dark zoned foliage; color bright scarlet, with a soft velvety finish, making a truly handsome Geranium. Large, bold flowers and trusses, held well above the foliage.

Rene Bazin. (Roz. 1906.) The darkest Geranium in our collection, a rich velvety shade of dark reddish purple; distinctly zoned foliage, dwarf habit.

Roi Edouard. (Lem. 1906.) Immense semi-double flowers of a beautiful shade of rich carmine lake, gradually shading to a distinct white throat which makes it one of the finest pinks in this collection; splendid habits and enormous trusses.

S. A. Nutt. A dark red Geranium, considered to be one of the best bedders and is more generally used than any other Geranium, both as a pot plant and bedder.

Suzanne Despres. Dwarf, bushy, compact habit; magnificent slightly zoned foliage, lending beauty to the delicate coloring of the flowers, which is coral white, each petal margined with tender rose, perfectly formed abundantly produced; semi-double grower; an exceptionally good variety as a pot plant.

Single Varieties

Abel Lefranc. An exquisite lilac white flower with lower petals entirely covered with rose lilac dots, extraordinarily large flowers of perfect size and form; one of the most attractive of the dotted sorts.

Admiration. A profuse bloomer of a most gorgeous flower of an attractive shade of bright rose shrimp pink, shading to a white center; enormous trusses of beautifully formed flowers, strong robust grower.

Alice of Vincennes. (Hill 1901.) White ground with charming gradation of colors from the throat through a beautiful shade of

violet crimson to a deep scarlet margin; a very distinct and charming variety.

Ardens. (Brt. 1906.) A most pleasing and effective shade of vermillion scarlet, distinct white throat; excellent habit of growth; very appropriate in a collection.

Bariolage. (Brt. 1906.) Clear rose color with lower petals blotched white, profuse bloomer, dwarf and vigorous; very handsome as a pot plant.

Claire Albane. (Brt. 1906.) Immense flowers of a pure white color, an excellent variety, large trusses; stands the sun perfectly well.

RYCROFT'S SURPRISE. *See description, page 30*

BALLADE. *See description, page 29*

R. Vincent, Jr. & Sons Co.
White Marsh, Md.

Standard Varieties—Single—Continued

- Commandant Felker.** (Brt. 1901.) A profuse bloomer of a deep cardinal red flower with small white eye, and dwarf branching habit; unsurpassed as bedder or for pot culture.
- Commandant Ott.** (Roz. 1906.) Perfect flowers of a beautiful shade of analin red with a large white center; excellent habit of growth; an extraordinary handsome variety; plants grow luxuriantly in pots and form unusually effective flowers.
- Dryden.** These most gorgeous flowers, borne profusely, render this a most popular variety for pot culture in Winter or for bedding out in Summer; bright cochineal red, shading to a pure white throat; slightly zoned foliage; clear healthy and vigorous habit.
- Eugene Sue.** (Lem. 1905.) A very attractive and brilliant shade of russet orange, immense foliage of a fine texture, semi-dwarf robust and branching habit; the floriferous effect of this flower is unsurpassable.
- Feuer.** A continual bloomer of a brilliant crimson red flower; dwarf compact habit of growth; very highly recommended when it came into our possession, and we predict for it a great future.
- Gabriel Montoya.** (Lem. 1906.) A strong robust grower of most exquisite reddish purple flowers; a very distinct and attractive shade; a continual bloomer of immense white flowers.
- Granville.** A most exquisite shade of dark rose pink with white blotches on upper petals; desirable, strong, compact and beautiful habit; can resist the extreme heat of the sun.
- Jacquerie.** Very vigorous grower of a most beautiful deep carmine red flower, enormous trusses on extraordinarily long stems; compact grower; a great bedder.
- Juste Oliver.** (Lem. 1905.) An excellent variety, producing a unique and continual display of carmine red flowers; effective for bedding purposes.
- Konigin Olga Wurttemberg.** A magnificent shade of deep rose pure white at base of petals; a profuse bloomer, flowers being produced at every joint; unsurpassed as a pot plant; dwarf grower; an old favorite of the Germans. We predict a great future for this flower.
- L'Aube.** (Brt. 1895.) One of the best single whites of this class, pure snow white, retaining its purity the entire season; excellent trusses, attractive foliage.
- Lord Curzon.** An excellent variety of an exquisite shade of old carmine red shaded fiery red at base of petals; an excellent variety, producing immense trusses of individual flowers the entire season.
- Marguerite de Layre.** (Brt. 1889.) Continual bloomer of beautiful pure white flowers; enormous trusses abundantly produced on long rigid stems; a very attractive and pleasing variety.
- Maxime Kovalevski.** (Lem. 1906.) A magnificent orange shade of Lincoln red; when in a collection forms a great acquisition; strong vigorous grower; excellent foliage.
- Mlle. Anastasie Lecadre.** (Brt. 1906.) Rich crimson carmine, shading through a maculated effect to a pure white center; immense trusses freely produced on long rigid stems; considered to be one of the largest growers we have of this class.
- Mme. Mosnay.** (Brt. 1906.) A magnificent shade of geranium red, upper petals shaded violet, to a white center; perfectly formed flowers, produced in enormous trusses on long rigid stems; deep green, handsome foliage; unsurpassed as a bedder.
- Mme. de Thebes.** (Lem. 1906.) An exquisite pure white flower, each petal delicately edged with rose pink; enormous round trusses; splendid habit of growth; an excellent variety for pot plants.
- Mrs. Brown Potter.** Bright rose Neyron flower, which is very effective and which we consider without hesitancy to be the most beautiful variety of clear pink in our collection; continual bloomer; dwarf compact habit of growth.
- Mrs. E. G. Hill.** (Brt. 1901.) A profuse bloomer of a soft light salmon flower, each petal bordered with rose salmon; exquisite semi-dwarf growth; will resist the heat of the sun; excellent for bedding.
- Mrs. E. Rawson.** Immense bright scarlet flowers with crimson, shading on upper petals; extraordinarily strong and vigorous; semi-dwarf growth; will resist the heat of the sun; excellent for bedding.
- Neron.** Orange scarlet flowers generally used for bedding; splendid constitution, dwarf habit, free bloomer.
- Nuit Poitevine.** (Brt. 1904.) A magnificent shade of rosy purple, lower petals feathered rich scarlet; unusually strong and vigorous. We unhesitatingly recommend this variety to those who wish a dark handsome Geranium, with fine habit of growth.
- Pamela.** (Cannell 1906.) Immense round flowers with a large pure white center shading through a maculated effect to a broad distinct outer margin of crimson lake; an exceptionally strong vigorous grower for English round flower sorts; this is a fine variety, and is greatly admired.
- Rival.** A unique soft shade of salmon red, upper petals beautifully blotched; an excellent pot plant and with careful cultivation is a splendid bedder possessing all the good qualities of a zonal and Ivy-Leaved type, but resembling more of the nature of the zonal.

Descriptive Geranium
Catalogue for 1911

R. Vincent, Jr. & Sons Co.
White Marsh, Md.

Standard Varieties—Single—Continued

Paul Crampel. (Lem. 1892.) Very attractive shade of vermillion scarlet; deep rich green, distinctly zoned foliage; strong, compact, vigorous and branching habit; one of the freest blooming Geraniums we have.

Princess Alex. Perfect flowers of a most beautiful carmine lake color, produced in excellent trusses on long stems; light green foliage, unsurpassed as a pot plant in this collection.

Richmond Beauty. (Hill 1902.) A most gorgeous flower of a brilliant vermillion scarlet, shading through delicate violet rose to a distinct white center; splendidly formed flowers produced abundantly on long stems; excellent trusses.

Rosalda. (Brt. 1906.) A true representative of the Bruant race, extremely handsome flowers of a rich crimson pink, upper petals heavily blotched white and penciled carmine; strong robust semi-double flowers.

Snowdrop. (Pears.) An attractive and pleasing shade of pure white, held well above the beautiful rich green foliage; enormous trusses.

Sycamore. A profuse bloomer of an attractive bright clear salmon pink, abundantly produced in enormous trusses on long stems;

strong vigorous grower of good habit, a cross between E. G. Hill and Bruanti.

Teodor de Wyzewa. (Lem. 1906.) Desirable flowers and trusses of excellent habit, abundantly produced, being of a cheerful clear shade of rich lilac rose with blotch on upper petals; strong branching semi-double growth.

Telegraph. (De Voy 1904.) A great favorite having enormous trusses of a beautiful Lincoln red, strong robust growth, an ironclad constitution and stands all weather with perfect immunity; mammoth dark green, heavily zoned foliage.

The Sirdar. A magnificent shade of intense scarlet, strong and robust growth, round florets of immense size, and of the finest qualities, produced on long stems, unsurpassed as a pot plant and very attractive in a collection.

Tiffin. (Ullrich 1906.) A very effective flower of rich glowing scarlet color with crimson shading on upper petals; one of the freest blooming single bedding varieties.

Victor Grosset. (Brt. 1906.) Excellent trusses and flowers of a bright rich shade of apricot salmon, bordering on vermillion scarlet; resists the extreme heat; profuse bloomer; excellent habit; strong healthy constitution.

Variegated Foliage Varieties

Happy Thought. A distinct and useful variety; center of leaf creamy white, with broad margin of rich green.

Jubilee. Beautiful salmon flowers, excellent foliage, of a rich golden bronze, and deep chestnut zone.

Masterpiece. Golden yellow foliage, with broad very dark variegated rich zone.

Black Vesuvius. Very dark deeply zoned foliage, dwarf compact habit, crimson scarlet flowers; excellent for pot plants and bordering in beds.

Golden Brilliantissimus. A dwarf compact grower of a wonderful variegation of dark green margined white, edged and dashed yellow, edge of leaves crimped, single flowers of a deep rich scarlet.

Mountain of Snow. Luxuriant light green foliage, distinctly variegated white, very healthy grower; beautiful scarlet red, well-formed single flowers, very attractive and showy, especially for pot plants; spreading and branching habit.

Mrs. Parker. Pink flowers, green leaves margined white.

Mrs. Pollock. Strong robust grower, considered to be one of the best bedding sorts, beautiful and attractive foliage, the leaves have a green ground, surrounded by a margin of golden yellow, dark chocolate zone, effectively variegated, orange red flowers.

Mme. Salleroi. Bright green leaves edged white; more universally used than any other Geranium as a border, dwarf compact habit, never excelling the height of one foot.

Mme. Languth. Beautiful cherry red flowers and foliage broadly marked with silvery white; a very attractive variety.

Silver Leaf S. A. Nutt. Profuse bloomer of immense crimson scarlet flowers, produced in fine trusses on long rigid stems, beautiful green foliage, edged white; very similar to Mme. Salleroi, but a much stronger grower. See illustration, page 4.

Sophie Dumaresque. Magnificent golden tri-color salmon scarlet; beautiful and attractive healthy green foliage, surrounded by a margin of golden yellow, with strong constitution.

Ivy-Leaved Varieties

We wish this season to call special attention to the Ivy-leaved Geraniums, of which we have a special collection, and a fine stock in the very best possible condition. This class of Geraniums is not as generally used as they should be, or will be when the new types become known, and the magnificent delicate colors become fully appreciated.

We had during the past season fine sturdy bushy plants in three-inch pots with from six to ten trusses of flowers on them at the same time. They make the finest kinds of pot plants when properly grown.

Achievement. Immense semi-double flowers of a distinct and pleasing shade of soft cerise pink, freely produced in large trusses; good habit and constitution, being a cross with a zonal; plants are luxuriant, healthy growers, blooming long and in prodigal profusion; they vase charmingly and are very effective for fancy baskets. It is a worthy member of that grand class of Ivy Geraniums, which have a tinge of the zonal in their make up, adding hardiness and strength to their constitution, enabling them to withstand inclement weather conditions. In growth it is semi-dwarf and branching; color is a distinct and pleasing shade of soft crimson pink, remarkable for its freshness, and extraordinarily fine variety as a pot plant.

Alliance. In 1905 when Mr. Lemoine introduced this variety he described it as a Pelargonium Peltatum Zonal "Alliance," signifying an affinity between the two types. A most exquisite shade of delicate lilac white, upper petals feathered and blotched bright crimson rose; an extraordinary variety, having all the good qualities that make up an attractive Geranium. Semi-double flowers abundantly produced in large trusses; beautiful foliage being of a splendid clean and leathery texture; excellent, robust, strong, close-jointed. This Geranium includes the beautiful soft finish of the Ivy and the hardy constitution of the zonal.

Ballade. This is without doubt an invaluable variety as a pot plant; the foliage is particularly attractive—dark glossy green, thick and leathery, with a waxy gloss; the color is one of the most charming shades found among the Ivy Geraniums, a fresh and attractive shade of most delicate lilac with a sea shell blush on upper petals, feathered crimson maroon; the flowers are semi-double, large and handsome. The habit is dwarf and branching; a gem in every way. *See illustration, page 26.*

Bettina. (1905.) Magnificent semi-double flowers of a charming shade of tender lilac white, center of flowers and petals being blotched with Tyrian rose, superior flowers and trusses, dwarf compact habit; when it is successfully grown it is remarkably beautiful as a pot plant.

Cesar Franck. (Lem. 1905.) This is destined soon to become one of the most popular Ivy Geraniums yet introduced; the flowers resemble Crimson Rambler rose, only much richer in color and finish, produced

on long stems in enormous trusses; color is a magnificent shade of soft rich crimson with an exquisite touch of tender rose at base of petals; quick growing and branching habit.

Corden's Glory. A profuse bloomer of an exquisite bright scarlet double flower, which is considered to be one of the best of this type; the plants display a continual profusion of bloom and are of exuberant, healthy growth; flowers are of good quality, and large size, pleasing and attractive for fancy baskets and vases.

Col. Baden Powell. An exquisite shade of pearl white, shading to soft blush; dark blotched upper petals; enormous flowers borne on long stems, abundantly produced on excellent trusses. *See illustration, page 11.*

Corinthienne. (1905.) Beautiful white tinted lilac, feathered and blotched with dark purple on upper petals; grand flowers borne on long stems, abundantly produced in excellent trusses.

Dina Scalarandis. Double white flowers, with a slight tinge of lilac on edge of petals, dwarf growers. Flowers abundantly produced on long flower stems. *See illustration, page 34.*

Duke of Edinburgh. A strong variegated Ivy Geranium, large handsome light green leaves, broad creamy white margin; the flowers are semi-double light rose, abundantly produced; this is an attractive and beautiful plant for whatever purpose an Ivy Geranium can be used. *See illustration, page 12.*

Hector Gaicomelli. When this variety is well grown it leaves nothing to be desired in the way of an Ivy Geranium. Flowers are large, semi-double and of a magnificent color; an exquisite shade of lavender white, effectively tinted pale rose, upper petals distinctly feathered crimson maroon, lower petals touched with the same color; on account of its splendid habit we feel that we cannot recommend this variety too highly as a pot plant, confident that it will make good every time.

Incomparable. Very large trusses and florets of good form and full, color a lovely shade of rosy carmine; dwarf, compact robust grower. A beautiful variety.

Joseph Warren. A very large bold semi-double flower, of good substance, the color being a lovely shade of rich purple, rose slightly feathered dark maroon; a distinct and striking variety. *See illustration, page 17.*

Ivy-Leaved Varieties—Continued

L'Elegante. This, while an old variety, is not as well known or as much used as its merit would warrant; there is nothing that compares with its exquisite gracefulness as a basket plant, with its rich green ivy-shaped leaves, edged with pure white, and delicate lilac white flowers freely produced, blending together in a charming harmony. This is a grand acquisition to any collection.

Mme. Thibaut. A well-known and exceedingly popular variety, it is one of the most beautiful of all pink Ivy Geraniums yet introduced; a magnificent shade of clear rosy pink, upper petals delicately but distinctly feathered deep crimson maroon; flowers are semi-double, perfectly formed; trusses are large and abundantly produced. The habit of growth is of a perfect Ivy Geranium; foliage is luxuriant and waxy; this is really an indispensable variety. See illustration, page 20.

Mrs. Banks. The flowers are large, semi-double, and borne in medium-sized trusses on long stems; color a pleasing shade of blush white, upper petals feathered reddish Neyron. In habit of growth it is true Ivy, exceptionally strong and vigorous, flowering abundantly through the Winter. The foliage is handsome light green. We have a fine healthy stock of this superb variety. See illustration, page 33.

Mrs. Hawley. Large semi-double flowers, strong robust grower, splendid habit, color a

pleasing shade of rose cerise, with a slight magenta shading, dark blotch on upper petals.

Pierre Crozy. An old and popular favorite of the hybrid Ivy class, showing the character and habit of the zonal in its dwarf branching and robust growth, and strong healthy constitution; its ivy nature in the handsome and delicate finish of its large semi-double bright scarlet flowers, large open trusses, and freedom of bloom, all combining to make a Geranium that is an ideal pot plant, and a good low-growing bedder.

Ryeroft's Surprise. Is undoubtedly one of the best and most beautiful pink Ivy Geraniums, having nearly all the good qualities combined, good habit of growth, large flowers, erect trusses blooming freely, clear green foliage. In color it is that attractive clear rose, rich pink that seems to insist upon being looked at. As visitors are going through our houses, when they come to a block of Ryeroft's Surprise in bloom, they invariably stop to admire its exquisite beauty. In habit of growth it is semi-dwarf short jointed, and branching; the foliage is large and of fine texture; the flowers and trusses are magnificent and freely produced so that ten or twelve trusses on a 4-in. pot is not a rare thing. Combining all these splendid qualities we have an ideal Ivy Geranium for pot culture. See illustration, page 25.

Scented-Leaved Varieties

Apple. (Pelargonium odorata.) Apple scented.

Balm. (P. vitifolium.) Large flowers, upper petals light lilac, lower petals dark; strong grower, very fragrant.

Capitatum. Small leaf, rose scented.

Clorinda. Large Neyron red flowers, shaded darker with maroon blotch; flowers are unusually large for a scented Geranium; deep green foliage with pleasant odor; excellent strong growing habit.

Dale Park Beauty. Flowers as large as a Pansy Geranium, broad lower petals of a deep lilac color, upper petals purplish crimson maroon, feathered dark maroon; very pleasant fragrant foliage.

Fair Ellen. Fragrant and beautiful large oak-leaved foliage.

Lady Mary. Small flowers; upper petals rosy lake shaded violet crimson, lower petals blush white, sweet scented.

Lady Plymouth. (Graveolens fol. var.) Variegated rose Geranium, green and rose white foliage, with golden tinge. Unique and attractive as a pot plant.

Lemon. (P. graveolens.) Dwarf, glossy, small green leaves, delightful lemon odor.

Little Gem. Rose fragrance, dwarf grower; splendid habit.

Mrs. Kingsbury. Large fuchsia red flowers, shading lighter to white eye; upper petals veined maroon; sweet scented.

Nutmeg. (P. fragrans.) Dwarf bright green foliage, nutmeg fragrance, introduced in 1774.

Old Unique. Deep lilac color; strong grower.

Pretty Polly. Purple orange; upper petals blotched maroon; almond scented; dwarf bushy habit.

Quercifolium. Beautiful oak-leaved foliage, dark center; finer variety than Quercifolium major.

Rose. (P. graveolens.) This variety has been a great favorite since 1690. The standard rose scented.

Scarlet Unique. Flowers dull scarlet, blotched with maroon; fine habit.

Schotteshampet. Filbert scented, dwarf compact grower; a splendid pot variety.

Tomentosum. Immense flat, woolly foliage, highly scented with peppermint.

Pelargoniums

- Alba fimbriata.** Profuse bloomer of beautifully fringed pure white flowers; splendid habits; excellent qualities.
- Alice M. Love.** A most charming shade of salmon rose, large dark blotch on upper petals, perfect habits of growth; fine bloomer.
- Beauty of Oxtou.** An attractive and beautifully fringed flower of a rich maroon color, darkly blotched and regularly margined white.
- Charles Outram.** An exquisite white flower, suffused with deep purple; blotch in center of each petal.
- Commander Peary.** A beautiful crimson, shaded magenta toward the large white center, dark maroon blotch on upper petals; an excellent variety.
- Countess of Crewe.** Lovely variety with beautiful thick crimped leathery petals, fine flowers of an attractive satiny rose color; very distinct and pleasing variety; flowers produced in the greatest abundance, the well-formed plant being covered by a mass of blooms.
- Countess of Warwick.** Attractive and effective plant with beautiful orange scarlet flowers, blotches of dark maroon; luxuriant trusses and foliage of a very healthy growth; these flowers form a most gorgeous effect when used in bouquets.
- Crimson King.** A beautiful intense crimson scarlet flower as referred to in name; one of the most popular varieties for market; fine habit of growth.
- Constant Coquelin.** Grand perfect flowers, rich violet purple, bordered bluish violet; very dark blotch.
- Dainty.** Fine full blush flowers, crimped edges, crimson blotch in upper petals; perfect habit.
- Decorator.** (Hayes.) Magnificent red flowers, dark blotch; very large and full clusters.
- Dr. Masters.** Beautiful flowers with rich crimson margin, dark maroon blotches, small blotch on lower petals. These plants grow luxuriantly and form unusually effective and showy plants; their abundance of blooms, long and rigid stems make them great favorites.
- Duke of Cornwall.** Beautiful reddish crimson ground, each petal bordered light salmon; large blotches of dark maroon; well-formed flowers of good substance, slightly crimped petals; fine trusses, branching and spreading habit.
- Edna May.** Very attractive deep rosy pink flowers, white center and margin; dark blotches on upper petals.
- Enchantress.** Profuse bloomer of beautifully fringed blush white flowers, clearly feathered maroon in upper petals.
- Emmanuel Lias.** Vigorous crimped rose white flowers, blotched crimson maroon in upper petals.
- Ernest Coquelin.** Perfect flowers, bordered light lilac, maculated dark; dwarf habit.
- Ernest Reyer.** Perfect flowers, dark velvet color, bordered light maroon.
- Evening Star.** An exquisite variety, beautiful and attractive clusters of deep crimson flowers, small blotch, distinct white eye; very attractive.
- Frederick Marson.** Purple maculated light, bordered rose; perfect form.
- Galatea.** Slightly fringed white, lightly marked, and streaked pink; rich blotch on upper petals. The plants are extremely robust with large handsome flowers.
- Gloriosa.** Very effective and handsome pearl white petals, solid blotch in upper petals. The plants are extremely robust with large handsome flowers.
- Hamlet and Ophelia.** Immense and well-formed light satiny mauve flowers, of a deeper color in upper petals, and blotched deep crimson maroon.
- King Haakon.** Purple shaded with a much deeper blotch on lower petals; very fine flowers.
- King of Spain.** Fine bold flowers of a reddish purple color, dark blotches, lighter center; very showy and effective; excellent constitution.
- Lady Carrington.** A most exquisite shade of blush white, light pink at margin and slightly reddish maroon, gathering on upper petals; a very distinct variety; fine robust habit; profuse bloomer.
- Lady Helen.** Beautiful light lavender flowers, dark blotches in upper petals.
- Lady Treloar.** Very distinct and attractive blush white flowers, tinted lavender; distinct maroon blotch in upper petals.
- Lady Duff.** Rich rosy red, distinct white margin and center; fine constitution; excellent petals finely crimped.
- Lord Carrington.** Enormous flowers and trusses of a beautiful mauve purple color, with a large crimson lake blotch in upper petals; excellent habits; an extraordinarily fine variety.
- Lord Mayor Treloar.** Profuse bloomer of bright rosy red flowers with a very effective maroon blotch in upper petals; large white center; white margin, beautiful well-formed trusses.

White Marsh, Md.

Pelargoniums—Continued

Marie Mallet. Very distinct silvery white flowers, carmine spots on lower petals; very dwarf compact habit.

Mons. E. Herzog. Beautiful scarlet flowers shaded silver, slightly feathered in upper petals.

M. Ph. Zeller. Deep red, each petal blotched maroon; very attractive.

Prince Olaf. Charming orange scarlet flowers, white center; immense trusses; a most perfect habit.

Princess Beatrice. Semi-double blush white flowers; an occasional blotch of deep crimson.

Purity. Resembles the grand variety Venus, quite as early but much stronger in truss,

and a better constitution. *See illustration, page 35.*

Rose Bard. A profuse bloomer of a very effective soft, rosy lake flower, shaded deeper in upper petals and blotched maroon.

Sam Blandford. Glowing orange scarlet ground, light shaded center; black blotch on upper petals.

Springboks. Light scarlet, immense white center, large trusses, free flowering; an excellent variety.

Sam Bardier. White, blotched crimson, dwarf grower.

Tommy Dodd. Immense showy trusses; lower petals soft blush, upper petals maroon and crimson.

Cactus Flowering Geraniums

A very unique and strikingly beautiful distinct type which originated in England but a few years ago, and at once won a place in great popular favor as pot plants, for the conservatory and window boxes, for which they are unusually pleasing and attractive on account of their remarkably handsome and thrifty but dwarf growth, small foliage and marvelous profusion of bloom.

The Cactus has by common consent been recognized as a distinctive term applied to certain types of Dahlias, Cinerarias, etc., but none deserve the appellation more than the Cactus Geranium, with its admirable elegance of form, exquisite, graceful narrow curled and twisted petals, similar to those of the finest grade of Cactus Dahlia.

Exquisite. Geranium lake.

Fire Brand. Rich scarlet.

Fire Dragon. Bright geranium red; exceptionally striking and showy.

J. R. Greenhill. Pleasing shade of soft hydrangea pink.

Mrs. J. Brown. Deep carmine; dwarf grower; free bloomer.

Salmon Queen. Light scarlet.

Rose Queen. Strawberry red.

The Countess. Scarlet color.

Diabolo. (Brt. 1908.) Small semi-double flowers very disorderly arranged, of a brilliant fiery scarlet color; dwarf grower; the plants are very floriferous.

Dazzler. Fine deep carmine.

MRS. BANKS. *See description, page 30.*

DINA SCALARANDIS. *See description, page 29*

PURITY. See description, page 32
